Computers for Youth -Atlanta (CFY) was established in May 2007 and is dedicated to helping children succeed academically by improving their home learning environment. Our signature program partners with schools to offer all sixth-grade families training designed to help parents become more effective learning partners and a free computer loaded with educational software, along with technical support. Studies confirm that CFY's programs significantly improve students' test scores, class effort, and parental involvement. Since 2007, CFY-Atlanta has reached over 2,600 families within the greater-Atlanta area. For more information about Computers for Youth in Atlanta, please contact Jeanne Artime, Executive Director of CFY-Atlanta, at 404/367-9990, or via email at jartime@cfy.org.

Our House, Inc. was established in 1987 by concerned community residents who realized that shelter rules required homeless families to leave early each morning and not return until late in the afternoon. **Our House's mission is to break the chains of homelessness by providing quality early childhood education and comprehensive support services for families who are homeless.** Our House programs for homeless families throughout Metro Atlanta include: free Early Childhood Education; Family Advocacy and support (case management and access to needed resources such as healthcare providers) and Parent Intern/CDA (job training and certificate-seeking course enabling participants to find employment in the childcare industry). Our House serves 79 homeless children (ages six weeks - five years) and their parents daily, preparing children for success in school and assisting parents with opportunities to achieve self sufficiency. For more information, contact Amy Green, at 404 378-0938 EX28, or via email at agreen@ourhousega.org.
